OBJECTIVE

Motivated second-year B.Tech. student with strong foundations in Data Structures, Software Development, and Machine Learning. Seeking opportunities to apply problem-solving skills, build scalable systems, and contribute to real-world AI and software engineering projects.

EDUCATION

Rajiv Gandhi Institute of Petroleum Technology
B.Tech. Information Technology (CPI: 8.51 / 10.0)

2024 – Present
Jais, Amethi

- Relevant Coursework: Machine Learning, C Programming, OOP, Operating Systems, DBMS, Discrete Mathematics
- Active participant in coding contests and technical activities

PROJECTS

Deep Learning & Image Classification Architectures
TensorFlow, PyTorch, NumPy, Python

Apr 2026
GitHub

- Implemented foundational algorithms (KNN, Gradient Descent) and Convolutional Neural Networks (LeNet-5) entirely from scratch.
- Engineered Grad-CAM heatmaps for model interpretability and performed transfer learning utilizing pre-trained VGG16 and ResNet50 models.

Personal Portfolio (V1)
Vanilla JavaScript, HTML/CSS, GSAP

Apr 2026
GitHub | Live Demo

- Developed a responsive, brutalist-inspired personal portfolio from scratch without templates to showcase engineering projects.
- Implemented advanced DOM manipulation and smooth scrolling experiences using GreenSock (GSAP) and Locomotive Scroll.

i-HEMS (Hybrid Energy Management System)
Node.js, MongoDB, JavaScript, HTML/CSS

Jan 2025
GitHub | Live Demo

- Developed an intelligent system integrating solar, wind, and battery resources.
- Built a real-time dashboard for monitoring energy usage.
- Designed REST APIs using Node.js and MongoDB.
- Enhanced UI/UX for efficient system monitoring.

TECHNICAL SKILLS

- **Languages:** C++, C, Python, JavaScript
- **AI / ML:** TensorFlow, Keras, PyTorch, NumPy, Pandas
- **Web:** HTML, CSS, Node.js, Express.js
- **Databases:** MongoDB, SQL
- **Core CS:** DSA, OOP, OS, DBMS
- **Tools:** Git, GitHub, Linux, Bash, VS Code

COMPETITIVE PROGRAMMING

- Solved 300+ problems across platforms like LeetCode and GeeksforGeeks (Arrays, Graphs, DP)
- Regular participation in coding contests

ACHIEVEMENTS & ACTIVITIES

- Active GitHub contributor with structured version control
- Experience in deployment using Netlify and Linux environments
